

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

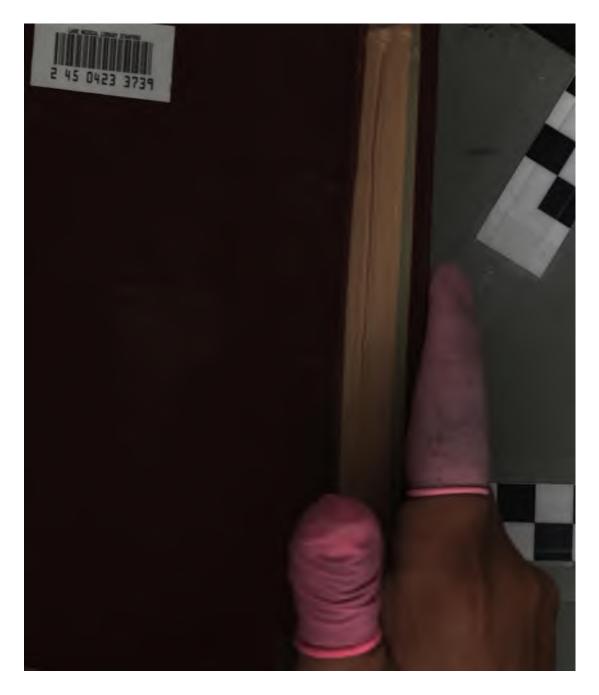

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

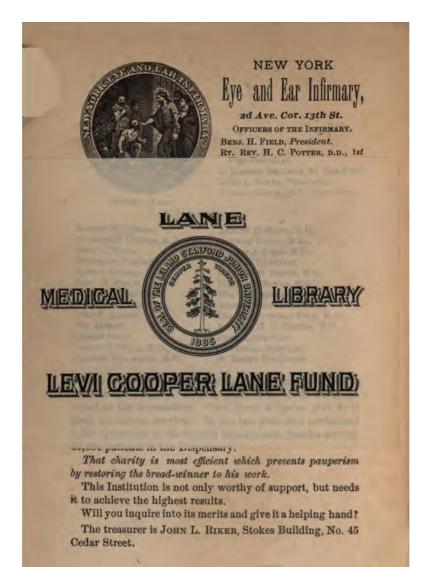

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + Keep it legal Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

## ROOSEVELT HOSPITAL.

The work of this institution has outgrown its endowment. Out of 2,704 patients last year, all but 316 were free. The Hospital had to refuse hospital patients for the want of proper accommodation. A large part of their land, bounded by Ninth and Tenth Avenues and 58th and 59th Streets, is unoccupied, and great need is felt for more buildings and a larger endowment to attend to the pressing needs of the neighborhood. Their work has, since its foundation, grown from 720 to 2,704 patients in the wards of the hospital and to 25,948 in the dispensary.

The expenses for the year ending December 31st, 1891, were \$126,242.05, and the receipts of income from all sources \$105,921.78, showing a deficiency of \$20,820.27.

Any of the Trustees will be happy to give information on the subject, or donations may be sent direct to the Treasurer,

### AMERICAN FEMALE GUARDIAN SOCIETY AND HOME FOR THE FRIENDLESS,

### 29 E. 29th Street and 32 E. 30th Street,

Established in 1834, Incorporated in 1849, is the pioneer of childsaving institutions in this country. In view of the moral evils existing its motto has ever been "Prevention is easier than cure." It is undenominational and the work has been carried on from the first by women.

Its first step was the establishment of a semi-monthly paper, THE ADVOCATE AND FAMILY GUARDIAN, which is now in its 55th volume.

The second step in this work of reform was the employment of MISSTONARIES to visit the wretched tenements in the moral wastes of the city.

The third was the erection of a Homs where exposed, neglected, and cruelly treated children could be protected. This Home for the Friendless has stood for over forty years and has sheltered nearly 40,000 little inmates. These children are not consigned to institution life, but when legally committed are transferred by adoption to Christian homes, to be trained to virtue and usefulness.

The fourth step in this child-saving work has been the establish ment of INDUSTRIAL SCHOOLS in destitute parts of the city, into which the children of the street, such as are below the level of the public schools, are gathered. Twelve of these are now in successful operation, with an annual registry of between five and six thousand. The industries of sewing, cooking, housekeeping, etc., are taught. A daily lunch of bread is provided and clothing for the most needy.

The Society supports also a BRANCH HOME for summer use at Oceanport, New Jersey.

The schools are partially supported from the public school fund, but the Society is not endowed, and its main support is derived from voluntary contributions and bequests. Money aid is greatly needed.

#### FORM OF DEVISE AND BEQUEST.

I hereby give, devise, and bequeath to the AMERICAN FEMALE GUARDIAN SOCIETY AND HOME FOR THE FRIENDLESS of the city of New York (here insert the amount of money or personal property bequeathed, or real estate devised), the same to be used for the purposes of said Society.

The aim and earnest effort of this Society is to care for such Jewish children as are required by law to be placed in an institution, by removing them from all harmful associations, and by surrounding them with the religious, moral and educational influences best adapted to their individual needs. When properly trained, opportunities are provided for them to enter the ranks of society and to lift themselves by honest industry and mo al worth.

It shelters about 600 boys and girls from 3 to 14 years of age. Its sanitary provisions and its cheerful and homelike arrangements are unsurpassed To prevent institutionizing the children those of a proper age are sent to the public schools.

The Managers urge those who are charitably inclined to become satisfied, by personal inspection, of their successful efforts to better the condition of those helpless ones who have been entrusted to their care, and earnestly solicit the benevolent support and aid which is so greatly needed.

PRESIDENT, SAMUEL COLGATE. VICE-PRESIDENTS: | MORRIS K. JESUP. WILLIAM E. DODGE, and WELCOME G. HITCHCOCK. TREASURER, KILIAEN VAN RENSSELAER, 56 Wall Street. SECRETARY AND CHIEF SPECIAL AGENT: ANTHONY COMSTOCK, Room 85, Times Building.

This Association is devoted to the protection of the moral purity of the twenty-millions of children under twenty-one years of age in this country by the suppression of obscene and indecent books, pictures, immoral articles, gambling. lotteries, etc. It hopes to prevent a scourge to the community arising from the spread of these vices, by keeping the children pure-preventing their becoming inoculated with moral leprosy. It is a work which appeals to every lover of humanity. Each one of the evils named above is a crime-breeder. Thus far, more than 56 tons weight, or upwards of 112,000 pounds, of corrupt matter has been seized and destroyed, and over 1,560 persons arrested.

Those who have become best acquainted with this Reform have declared it to be "the most important of any in existence." Surely the protection of the morals of twenty millions of children is worthy of the support of all good citizens.

For eighteen years sustained by voluntary contributions,

#### TO OUR PUBLIC HOSPITALS.

This Mission is well organized, broad and beneficent; but, from the very nature of its work, it cannot be self-supporting.

THE MISSION IS UNDEROMINATIONAL, and has no paid agent to collect funds. The Trustees are making great effort to secure some definite income, and earnestly ask contributions and bequests towards a permanent fund, or to meet immediate running expenses if preferred.

For further information kindly refer to page 98, or to MRS. WM. T. BLODGETT, President; MRS. DAVID H. GOODWILLIE, Secretary; MISS MARCELLA BUCHANAN, Treasurer.

### THE HOME-HOTEL ASSOCIATION.

#### INCORPORATED IN 1888.

Its object is to found a Home for the needy who labor in literature or art, or in any of the various professions. The residence of the founder, 158 St. Ann's Avenue, New York, is at present the Home-Hotel. No entrance fee is required. It affords a permanent Home to the aged of both sexes and a temporary home to others not aged, until able to resume their labors. It seeks to find employment for such. No regard to creed or nationality. Furthermore, its object is also to provide a refined home at an exceptionally low figure to the student of both sexes, governesses and others of the educational class who can afford to pay but little. We know of no other such Home in the United States. Another feature of our work is that we provide aid to the needy of this class in their own homes, in groceries, medicines, and a little money. The Annual Report will be cheerfully furnished at any time.

We have no endowment, are dependent upon subscriptions and donations. Two hundred dollars constitutes a Patron, One hundred a Benefactor, and Fifty dollars a Life Member.

GEN. JAS. GRANT WILSON, 15 East 74th Street, is the Treasurer.

MISS MARY A. FISHER, President, 158 St. Ann's Ave.

MRS. JOHN H. HINTON, Vice-President, 41 West 32d Street.

### THE NEW YORK CHRISTIAN HOME FOR INTEMPERATE MEN,

Organized under special charter for the spiritual, moral, mental and physical restoration of intemperate men.

The methods of the management are distinctly Christian, not medical, not those of a permanent asylum for inebriates. The aim is to furnish a temporary home where religious instruction and helpful association lead to Christian manhood.

Those able to pay do so, according to accommodations given, but poverty need hinder none from admission. \*Five weeks is the required period of stay in the Home, and application may be made to Mr. Charles A. Bunting, Resident Manager, No. 1175 Madison Ave., cor. 86th St.

### HOME FOR INCURABLES, FORDHAM, NEW YORK.

### 1820 STREET AND THIRD AVENUE.

President, BENJAMIN H. FIELD. Vice-Presidents, MARTIN E. GREENE, ADRIAN ISELIN, Treasurer, GEO. SHERMAN, 54 Wall St. (Central Trust CO.) Secretary, H. M. MCLAREN, 89th St. and Seventh Ave. Superintendent, ISRAEL C. JONES, M.D. Physician, ARCHIBALD M. CAMPBELL, M.D.

The Home for Incurables was organized in the year 1966, and the Managers have aimed to make it what its name implies, a "Home" for that large class of sufferers whose diseases are pronounced incurable, and who, by the nature of their disease, are denied admission to the ordinary hospitals, while the persons themselves, though in many instances quite poor, are. in refinement, education and social position, and above all, religious character, so far removed from the pauper class that no Christian mind can for a moment bear the thought of dismissing them to the public charities.

Of such patients, some are received and provided for gratuitously, their support becoming a charge upon the resources of the Home; while others are paid for, either by their friends or from their own means—the charge being \$7 per week and upward; a higher rate is fixed for patients whose condition makes it necessary to place them in a separate room and to give them the extra attention of a nurse.

Board money of pay patients must be paid eight weeks in advance.

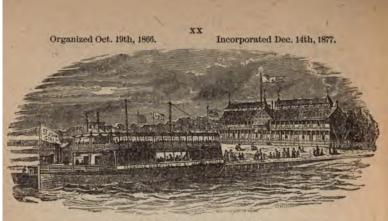

Application for admission of patients should be made to the Superintendent, from whom blank forms of application may be obtained.

The payment of \$5,000 in one sum provides a Free Bed in Perpetuity.

Contributions in Cash may be sent direct to the Treasurer, Mr. George Sherman, 54 Wall Street.

Donations of Clothing, Books, Games, etc., can be sent direct to the Home, or will be called for on notifying the Superintendent, Dr. Jones.

Thursday is regular visiting day when all will be gladly welcomed.

### THE PENNY PROVIDENT FUND

of the CHARITY ORGANIZATION SOCIETY of the City of New York, will receive and deposit for safe keeping any amount from one cent up-ward. It aims to do what savings banks do not—invite savings of small sums less than one dollar. It has over one hundred and forty

local offices or stamp stations, conveniently located for depositors. This fund is for older people as well as children. No one is too old or too young to save. The aim of this Penny Provident system is to inculcate habits of providence and thrift; to show how, by little is to inculcate babits of providence and thrift; to show how, by little savings, larger sums may easily be accumulated, and to teach in a very practical way the truth of the old saving: "Take care of the pennies, and the pounds will take care of themselves." Deposits are receipted for by stamps attached to a stamp card, a system widely used in England and other countries. Make a beginning! The Treasurer has given bond to the amount of \$10,000 for the faithful performance of his duties, and as the deposits increase the bond will be increased, so that the deposits will always be secured. The Committee gives its services without compensation, and the entire deposits are in the State Trust Company, 50 Wall Street, New York City.

### PREFACE.

THIS Directory has been compiled for the use of societies, churches and individuals, working, either directly or by agents or representatives, among the poor of New York City, and for those who are solicited to give to the Charities of the City. It is also valuable to all interested in the charitable resources of New York City, as it shows where relief can be had and where contributions to any special charitable work in the City may be sent.

The contents have been carefully classified, and arranged so as to show at a glance all the resources which the City affords for each or any phase of distress or need.

The labor of analyzing the varied work of more than three hundred charitable and five hundred congregational agencies can only be appreciated by those who have attempted it, and they will not be surprised at any errors or omissions which they may find. The information has often to be elicited from indifferent or unintelligent officials. It is, however, as correct and complete as great care and labor could make it.

The Society begs consideration for mistakes and omissions, and requests information of any that may be found, so that they may be corrected in the next edition. It also asks that all benevolent agencies named in this volume will enter the CHARITY ORGANIZATION SOCIETY upon their list of exchanges, and send to it early copies of their Annual Reports and of all information and publications issued by them.

Tt should be further stated that the fact that a Society or Institution is named in this volume must not be taken to mean that the CHARITY ORGANIZATION SOCIETY indorses either its good faith or its usefulness, as some of these have necessarily been included of whose utility and wise management grave doubts are entertained by some persons. This Directory omits those which have been unfavorably reported upon by the New York State Board of Charities, and others which are known to be unworthy of supportin short, all which are inserted in the cautionary list printed in the Monthly Bulletin of the Society, now the Supplement to the CHARITIES REVIEW. The omission of any society from this volume does not, however, necessarily discredit such society, as it may have been organized since the material for the book was put into the printer's hands. Contributors and members may obtain more particular information concerning Societies and Institutions by applying to the State Board of Charities, or to this Society.

By order of the Executive Committee,

### SAMUEL MACAULEY JACKSON,

### Chairman of Publication Committee.

CHAS. D. KELLOGG, General Secretary.

### ORGANIZED CHARITY.

The question is often asked—"What is Organized Charity?" and "How does it differ from any 'organization' for administering charitable relief?" These inquiries may be best answered by stating what this Society is and does.

The CHARITY ORGANIZATION SOCIETY of the City of New York was formed in the year 1882 at the suggestion of the STATE BOARD OF CHARITIES, for the purpose of offering to the charitable activities of the metropoliscivic, chartered and individual-the benefits which are found to result from associated and concurrent action in other departments of social as well as in business life. The evils resulting from the lack of co-operation in charitable administration are apparent in every large community, in the steady increase of pauperism in a ratio far greater than the increase of population. The larger part of the relief amply provided for the shrinking, struggling, deserving poor is captured by the shameless, persistent mendicant. Charitable relief, thus injudiciously applied, does much positive harm in alluring the poor into idleness, improvidence and vice.

The poor may be fed and clothed, while their moral natures are overlooked and no effort is made to inculcate those self-reliant habits and noble ambitions upon which the wholesomeness and happiness of their lives depend. These evils, which all thoughtful benevolent workers now realize, show the urgent need of some organized movement for their cure; and this Society offers itself as the medium of intercommunication between all the various charitable agencies of the City to accomplish this result. Its tender of service has been accepted by the City Department for administering the public poor relief, and by nearly all of the leading religious and relief societies. The Society is based on two germinal principles:-

First, its work is entirely dissociated from all questions of creed, politics or nationality ;

Second, it does not directly administer alms from its own funds in any form.

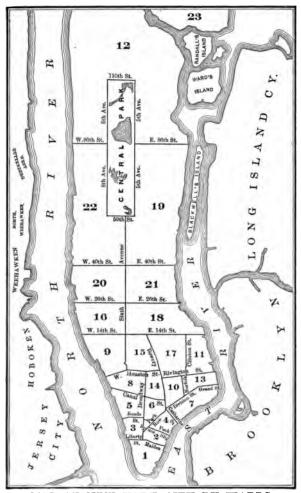

Thus it covers a platform as broad as humanity, upon which Jews and Gentiles, Catholics and Protestants may all combine. And, while all proselytism is strictly forbidden, it is the rule that all cases shall be put as speedily as possible under the care of their nearest religious affiliations, because not only thus will they be brought directly under the purest and highest influences, but the obligation to see that their material wants are provided for will be most speedily recognized.

Nor does this Society in any way hinder or conflict with any relief-giving agency, but is the helpmeet, protector and servant of all. It aims at nothing less than the moral and social elevation of the poor by bringing into closer and more friendly contact the prosperous and the depressed, the refined and the degraded, by a thorough system of personal visitation. To effect this it has in large part covered the City (and as rapidly as practicable will cover the entire City) with a network of district committees, or branches, with district offices so located that all benevolent persons may have a near resort to which they can send every unknown applicant for relief; and all sufferers may find an agency at hand pledged to examine tenderly and wisely their needs. to select and secure the proper material remedy, and to supply as far as possible that friendly oversight and continued care which are a thousandfold better than alms.

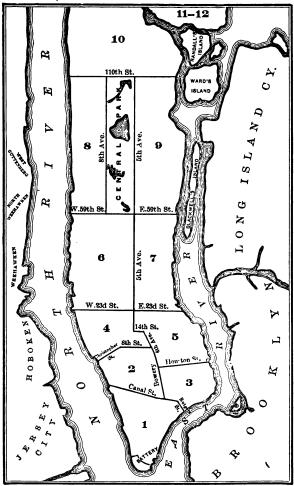

These district committees are composed of men and women fitted by natural instincts, by experience if possible, and by judgment and tact, for their responsible work. Being prevented from administering alms, they will have power and opportunity, untrammelled by the greed and duplicity they would else encounter, to carry into depressed and degraded homes the best social and moral influences, and the rich and subtle forces of friendship.

Being disconnected, also, from any relief fund, they can impartially select the regimen which will not merely treat the effect, but tend to remove the cause of the poverty and graduate the beneficiary into a condition of independence and self-support. A remedy exists in this City for nearly every evil to which flesh is heir, but how few, even among benevolent officials themselves, know to whom to send the poor applicants who do not come within the conditions of their own relief! This Society, through its district offices, is a reservoir of practical knowledge, a centre of resource, so that such uninstructed, inefficient work shall be without excuse. It brings the want and its remedy together, and should a special form of suffering and want be developed, it can devise a special relief without infringing its rules and without casting any applicant aside. It can assist and supplement every existing charity and promote the effectiveness and economy of each. Each **District Office** has its trained and paid agents, whose whole time is given to the duties of the office.

The Central Office of the Society is a clearing-house of information and registration, not only for its own district branches, but also for all the relief-giving agencies of the City, thus detecting and exposing imposture and overlapping, and gathering information concerning the worthy and unworthy, which, under suitable guards, is available to all co-operating charities. The work of detecting and exposing impostures is one which deserves the help of every citizen. If successful it will return its cost to the public a hundredfold in reduced taxes and lessened waste of charitable means. Combined with the disciplinary and reformatory work of the Society, it will reduce the ranks of the dangerous classes more than any other agency yet devised for that purpose. This branch of its service may seem hard and unsympathetic, but all who have studied the arts and deceits and organization of the professional beggars are alive to its indispensable necessity. Each District Office will deal practically with all the cases brought to its notice within its own limits, and be responsible that no case receives or is denied relief without good and sufficient reasons, or fails to have the offer of friendly services pressed upon it with the hope to lead it to a better life.

This Society cares for the moral and spiritual interests of Seamen, through Reading-Rooms, Distribution of Tracts, Meetings on Shipboard, at its Rooms, and Church, and by personal appeal. During the past year it has come into contact with over 30,000 Seamen at its Rooms, and many more on vessels and at boarding houses. The Pastor of the Church and a corps of missionaries and laborers devote their entire time to the welfare of the men of the sea. To carry forward this object, *continued* and *increased* donations of money and reading matter are required.

The sailor needs our attention and is worthy of it. We cannot do without him, and we advance our own well-being when we care for him. Every dollar that we expend in his behalf is returned to us tenfold. With full confidence that in no way could money be better employed, we call upon ship owners and ship suppliers, upon all who "go down to the sea in ships," and upon all of our citizens in every trade and profession who are in any way dependent upon the sailor for safety or comfort, for luxuries or for necessities (and no one can plead exemption), to aid us in our endeavor to "win the sailor to the right."

## THE

## CHARITY ORGANIZATION SOCIETY

OF THE CITY OF NEW YORK.

Incorporated May 10, 1882.

Central Office, No. 21 University Place, N. E. Cor. 9th St. (May remove, before the close of 1892, to N. E. Corner of 22d St. and Fourth Ave.)

# ORIGIN OF THE SOCIETY.

The State Board of Charities adopted, October 11, 1881, the following preamble and resolution :

"Whereas, There are in the city of New York a large number of independent societies engaged in teaching and relieving the poor of the city in their own homes, and

"Whereas, There is at present no system of co-operation by which these societies can receive definite mutual information in regard to the work of each other, and

"Whereas, Without some such system it is impossible that much of their effort should not be wasted, and even do harm by encouraging pauperism and imposture, therefore

"Resolved, That the Commissioners of New York City are hereby appointed a committee to take such steps as they may deem wise, to inaugurate a system of **mutual help** and co-operation between such societies."

In accordance with this resolution, the New York City members of the State Board of Charities invited citizens representing, as far as possible, all portions of the community, to assist in organizing this Society, under a carefully prepared constitution, and to act as a Provisional Central Council until their successors should have been chosen by the Society at large, at its first annual meeting. The Society was thus formed January 26, 1882.

The first annual meeting was held May 15, 1882, when the Constitution was adopted and a permanent Central Council and officers were chosen.

The following article from the Constitution shows the principles and objects of the Society:

#### ARTICLE II.-PRINCIPLES AND OBJECTS.

SECTION 1.—This Society shall be conducted upon the following fundamental principles :

1.—Every department of its work shall be completely severed from all questions of religious belief, politics, and nationality.

2.—No person representing the Society in any capacity whatsoever shall use his or her position for the purpose of proselytism.

3.—The Society shall not directly dispense alms in any form.

SECTION 2.- The objects of the Society shall be :

1.—To be a centre of intercommunication between the various churches and charitable agencies in the city. To foster harmonious co-operation between them, and to check the evils of the overlapping of relief.

2.—To investigate thoroughly, and without charge, the cases of all applicants for relief which are referred to the Society for inquiry, and to send the persons having a legitimate

interest in such cases full reports of the results of investigation. To provide visitors, who shall personally attend cases needing counsel and advice.

3.—To obtain from the proper charities and charitable individuals suitable and adequate relief for deserving cases.

4.—To procure work for poor persons who are capable of being wholly or partially self-supporting.

5.—To repress mendicity by the above means and by the prosecution of impostors.

6.—To promote the general welfare of the poor by social and sanitary reforms, and by the inculcation of habits of providence and self dependence.

The CENTRAL OFFICE of the Society is the centre of intercommunication above named. It receives from all cooperating churches and charitable agencies detailed reports concerning their beneficiaries, and distributes (confidentially) information so received to each of them which reports that it is aiding, or is asked to aid, the same cases. The 5th and 6th of the aforegoing "objects" also receive the special care of the Central Office.

The work implied in the 2d, 3d, and 4th of these "objects" is the special care of the DISTRICT COMMITTEEs of the Society, as fast as they are formed; and to these the actual care of dependent cases, residing in the districts assigned to each, may be referred. Cases not residing in districts so assigned, and not already sufficiently cared for by other societies or churches, may be referred to the Central Office of this Society.

THE CHARITY ORGANIZATION SOCIETY THUS BECOMES :

1. A CLEARING HOUSE of registration, information, and associated action among all the charitable activities of the city.

2. An EXCHANGE, through which to apply the cooperative system to benevolent work, and bring to bear on each case of distress the best available resources of the whole city, especially for permanent and adequate relief; above all. along such moral lines as are likely to render applicants independent of further temporary or physical relief. **3.** A MERCANTILE AGENCY, for information concerning the charitable enterprises of the city (of which there are many fraudulent and pretended ones), and also concerning applicants for charitable relief.

The Society has no funds of its own for direct relief, but it has a Permanent Endowment Fund, the income of which goes towards paying the expenses of the Central and District Offices; and the increase of this Fund will enable the Society the more efficiently to enlarge and carry on its work. (See Form of Bequest, back of title page.)

The Society's Constitution, By-Laws, and Rules for District Committees will be found in the Appendix.

Any person approved by the Committee on Membership can become a Member of the Society by the annual payment of \$10, or an Associate Member by paying \$25 annually. A gift of \$100 and upwards makes the donor a Life Member, and \$500 constitutes one a Patron of the Society.

Any further explanation of the aims and methods of the Society may be had at the Society's Central Office, or from any member of the Council.

1st. To furnish a place where children, born in or out of wedlock of parents too poor to support their offspring, or of mothers who, not being wives, are anxious to conceal their shame, may be received and brought up to lead useful lives instead of being abandoned in the streets and parks of the City, or untimely put to death.

2d. To give a home to unfortunate mothers who, realizing their fallen condition and the dangers of the future, resolve to lead a new and better life.

3d. To provide for poor girls who, on the eve of their confinement, need a safe shelter.

During the past fiscal year 2,705 Foundlings, 418 Needy Mothers and 212 Maternity Cases were provided for.

SISTER M. IRENE, Directress.

The Society is making arrangements to build a new home at the foot of 139th Street and the North River. It will be commodious and enable us to extend the work and better classify the inmates.

THE SOCIETY IS NON-SECTARIAN.

This Society is supported entirely by voluntary contributions. Donations of money, partly worn cloth ng, shoes, etc., also books, papers and magazines, will be gratefully received.

38 Bleecker Street, New York.

RWV. ALEXANDER MACKAY-SMITH, D.D., Archdeacon of New York, Auperintendent of Mission Work.

REV. BROCKHOLST MORGAN, Assistant Superintendent.

N.B.—We make a special appeal to be remembered in Wills that have been or shall be made, and thus create an Endowment Fund. Our field is the whole city. Our Object is to preach the Gospel to the poor, and relieve the unfortunate.

We stand to day in urgent need of funds to increase our work, and that work can never be thoroughly done unless aided by an Endowment.

Can you, who read this, do a better deed than to so consecrate a partion of your means that after your death you shall go on living in the labora of some servant of God who is preaching the Gospel or adding the needy in your name ?

THE CRITIC COMPANY, 52 & 54 Lafayette Place.

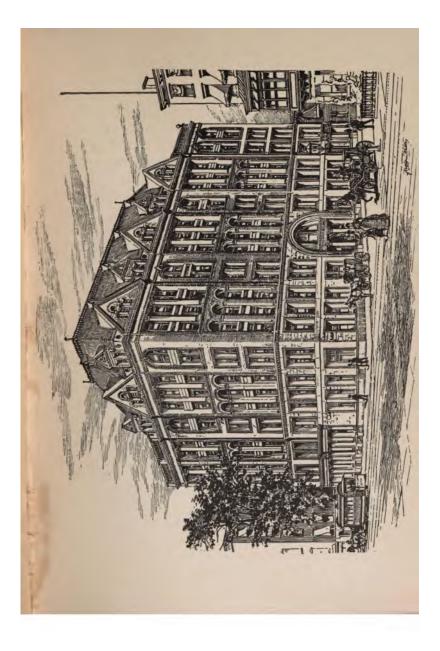

# THE UNITED CHARITIES BUILDING, FOURTH AVENUE, CORNER 22d STREET, Erected by Mr. JOHN S. KENNEDY,

Will be the permanent home of the CHARITY ORGANI-ZATION SOCIETY (with its records of 150,000 families and persons, derived from more than 300 co-operating Societies and Churches, during its ten years of work), the Association for Improving the Condition of the Poor, the Children's Aid Society, and the New York City Mission Society. On the corner above the New York Society for the Prevention of Cruelty to Children will soon put up their building, while across the way is the Young Men's Christian Association.

It is manifest that a building so occupied and located offers unequalled advantages to charitable societies of every description. The more of those induced to take up their abode in the building the nearer will it realize the desire of its Founder, and become a centre of information and record about charitable work in all lines and a place where the needy can receive, or be intelligently guided to, adequate relief.

The Building will be fire-proof, steam-heated, with elevator, electric lights, and all needed "modern conveniences; and offices therein will be rented at reasonable rates. It will also contain a large Hall for public meetings. Applications from benevolent and kindred Societies are solicited. Address the

Trustees of the United Charities Building, Care of the CHARITY ORGANIZATION SOCIETY, 21 UNIVERSITY PLACE, NEW YORK CITY.

In the following pages is given, as far as practicable from such responses as have been received in reply to our appeal for information, a brief account of the charitable and benevolent societies connected with each Church or Congregation, organized for relieving or elevating in any way the poor and needy of this city.

In addition to these, it should be remembered that each Roman Catholic Church has its Conference of St. Vincent de Paul, and that the Hebrew Synagogues administer relief through the United Hebrew Charities. Also that nearly every Church and Congregation has its Communion Alms, Deacons' Fund, or other provision for the temporary and often the permanent relief of the needy who have any claim upon it. Information concerning these provisions may always be had of the Pastors or officers of the Church.

The objects of the following Societies, one or more of which have branches in most of the leading churches, will be found stated in full under their several Classes and Divisions : viz., Brotherhood of St. Andrew, Epworth League, United Society of Christian Endeavor, see Class X., Div. 9; Girls' Friendly Society, see Class X., Div. 5; International Order of King's Daughters and Sons, see Class IX., Div. 3.

Norg...-The numbers prefixed to the Churches are those of the Districts of the Charity Organization Society in which they are located. Where no number is given it indicates that the Church is above the Harlem River, where the Society at present has no Districts. A map giving the boundaries of these Districts will be found in the preface of this volume.

2.—One delegate member from each District Committee, who shall be elected by each District Committee annually before the annual meeting of the Society, and who shall hold office until the next annual meeting and until his successor shall be elected. Such delegate members shall be deemed elective members within all the provisions of this Constitution, and shall have the same powers as members of the Council elected by the Society, but shall not be required to serve on the sub-committees of the Council.

3.—*Ex officio* members of the Society, as provided in Section 3 of Article III.

SEC. 2. 1.—The Officers of the Council shall consist of a President, Vice-President, Treasurer and General Secretary. 2.—At any meeting of the Council, seven elective members shall constitute a quorum.

SEC. 5.—The Council may adopt a regular order of business for its meetings and suitable regulations for the conduct of the same, and may from time to time alter or suspend such regulations.

SEC. 3.—Each District Committee shall, subject to the control of the Council, manage the work of the Society within its district. It may make by-laws for its own government, provided that such by-laws do not conflict with the Constitution of the Society, the By-Laws of the Council, or the Rules for the Government of District Committees.

SEC. 4.—An office shall be established in a central and convenient position in each district, or combination of districts, for the meetings of the Committees, for receiving applications and for facility of reference. It shall only deal with the cases of persons resident in the district.

SEC. 2.—The Treasurer or other persons designated to receive subscriptions shall make monthly reports to the Council of all sums received.

SEC. 3.-No member of the Society shall be entitled to
